東海大學簡介 About THU

From Tunghai University's modest beginnings in 1955, the school has always adopted a 'pioneering spirit'. When most Taiwanese universities' sole emphasis was on specialization, we were the first to offer a well-rounded general education. When the standard practice was separation between academics and life, we initiated a student work labor program to promote holistic education. 50 years later, this program has become an integral part of the Tunghai curriculum. It has been praised by people from all walks of life, and has been imitated by other universities. These examples of our pioneering spirit have made Tunghai a university unique in its goals and ideals.

The University is located on a spacious, picturesque 345-acre hillside campus with many beautiful trees and grass. This makes Tunghai an ideal living and learning environment. The landmark Luce Chapel is one of Taiwan's most photographed architectural masterpieces. It was an early project of

world-renowned architect I.M. Pei.
